

PROJECT PROPOSAL

Online Exam Simulator With **Anti-Cheat System**

Course Title: Software Engineering Sessional

Submitted By

Team Name: Team “Doubble Quotation”
Department: Computer Science & Engineering (CSE)
Institution: NBIU Rajshahi

Submitted To

Course Instructor: RifaZumana
Designation: Lecturer
Department: Computer Science & Engineering

Project Overview

This project proposes the design and development of a secure desktop-based online examination system with integrated anti-cheat mechanisms. The system aims to ensure academic integrity by enforcing controlled exam environments, real-time monitoring, violation logging, and administrative oversight.

“Dedicated to building secure, reliable, and high-performance academic assessment solutions.”
